

PITTADA SAI HARSHA VARDHAN

Technical Product Manager | Ex-SDE | MTech PDM @ IIIT-Hyderabad

+919603028848 | saiharsha9897@gmail.com | Portfolio | LinkedIn | GitHub

Summary

Technical Product Manager with 1+ year of engineering background in full-stack and mobile, now focused on 0 to 1 discovery to delivery. Currently MTech in Product Design and Management at IIIT-Hyderabad. Owned roadmaps, PRDs, and Agile delivery for 5+ web and mobile products in startup environments. Comfortable going deep with engineers on APIs, data models, and trade-offs, and going broad with stakeholders on prioritization, metrics, and GTM.

Experience

Founding Technical Product Manager - ReelOnGo

Hyderabad, Hybrid

Oct 2025 - Present

www.reelongo.com

- Own product roadmap and backlog for **3 high-traffic web apps and 2 cross-platform mobile apps**, writing PRDs, user stories, and acceptance criteria and driving concept-to-launch in Agile sprints.
- Lead discovery through stakeholder interviews and user feedback analysis, translating insights into prioritized features using **RICE / MoSCoW**, cutting scope creep and shipping MVP on schedule.
- Partner with design and engineering on **Next.js, React, React Native** delivery. Run sprint planning, reviews, and UAT to ensure production-ready releases and fast iteration cycles.
- Define success metrics for engagement and retention. Analyze usage funnels to drive iteration on content discovery flows, improving engagement and repeat usage.
- Make technical trade-off calls on **REST API design and MongoDB schemas** for real-time content delivery to balance speed, scalability, and development cost.

Technical Product Intern - ReelOnGo

Hyderabad, Hybrid

Aug 2025 - Sep 2025

www.reelongo.com

- Supported roadmap definition for web and mobile apps, drafting user stories and acceptance criteria from stakeholder requirements.
- Assisted in Agile delivery with design and engineering, tracking sprint progress and QA for production releases.

Software Engineer - Netlabs Australia Pvt Ltd

Remote

Jul 2024 - Aug 2025

netlabsaustralia.com

- Worked as engineering partner to product managers for enterprise clients, grooming backlog, scoping sprints, and delivering **Scrum commitments on schedule** across Remix, NestJS, and TypeScript stack.
- Drove mobile product growth by scoping and shipping key **Expo / React Native** flows, contributing to **25% lift in mobile retention**.
- Improved product performance by identifying funnel drop-offs and technical bottlenecks in **React + Node.js/Express** services, reducing page load times and improving throughput for high-traffic journeys.
- Facilitated stakeholder demos, release notes, and prioritization discussions, aligning engineering effort with business outcomes and client OKRs.

Education

International Institute of Information Technology Hyderabad

MTech in Product Design and Management (PDM) - 7.59/10

2025 - 2027

Anil Neerukonda Institute of Technology and Sciences

BTech in Computer Science and Engineering (Data Science) - 9.18/10

2021 - 2025

Product Builds

SelfieSearch - AI Event Photo Discovery

Live Demo

- Defined 0 to 1 product for event photo retrieval via face search. Mapped organizer, photographer, and guest journeys to reduce distribution friction.
- Made core architecture trade-off: **Next.js frontend + Dockerized FastAPI worker (ArcFace)** to isolate heavy ML from web tier for cost and latency control.
- Prioritized high-impact features for launch: **QR-based guest access, S3 media pipeline with thumbnails, Atlas Vector Search**, and admin dashboards for organizers.
- Drove activation by removing login friction for guests and adding signed uploads/downloads with configurable storage providers.
- Stack: **Next.js 16, TypeScript, tRPC, Prisma, MongoDB, Python/FastAPI, OpenCV, AWS S3, Docker**

Skills

Product: Roadmapping, PRDs, User Stories & Acceptance Criteria, Backlog Prioritization (RICE, MoSCoW), Agile / Scrum, Sprint Planning & UAT, User Research & Interviews, Personas & Journey Mapping, Wireframing, Funnel & Cohort Analysis, A/B Testing, GTM, Stakeholder Management

Analytics Tools: RudderStack, Mixpanel, Jira, Linear, Notion, Figma, Google Analytics, PostHog

Technical: TypeScript, React, Next.js, React Native / Expo, Node.js, FastAPI, REST, tRPC, Prisma, MongoDB, PostgreSQL, AWS S3, Docker, Vercel, GitHub

Achievements

- Secured **AIR 1243** in **GATE 2024 (Data Science & AI)**
- Led 0 to 1 planning and rollout of CRMs, web products, and native mobile apps from discovery to release
- Won **AWS Hackathon** as part of a six-member team for rapid product prototyping
