Experience

Technical Product Intern – ReelOnGo

Dec 2025 – Feb 2026

Hyderabad, Hybrid

- Bridged product strategy and engineering by designing and developing 3 high-traffic web applications using **Next.js**, **React**, and **TypeScript**, collaborating with multidisciplinary teams.
- Directed end-to-end development of 2 cross-platform mobile apps in **React Native**, owning the roadmap from concept to public release in an Agile startup environment.
- Architected **REST APIs** and designed **MongoDB** schemas to support real-time content delivery, improving engagement metrics through usage analysis.
- Translated user feedback and stakeholder requirements into actionable features, shipping production-ready solutions and iterating based on quantitative insights.

Software Engineer – Netlabs Australia Pvt Ltd

Jul 2024 – Aug 2025

Murarrie, Queensland, Remote

- Developed and maintained robust full-stack applications for enterprise clients using **Remix**, **NestJS**, and **TypeScript**, following Scrum methodologies.
- Engineered cross-platform mobile solutions using **Expo** and **React Native**, expanding service reach and improving mobile retention metrics by 25%.
- Identified and resolved complex technical bottlenecks in **React** and **Node.js/Express** services, optimizing system throughput and reducing page load times.
- Partnered with product managers and stakeholders to prioritize features and deliver sprint commitments on schedule.

Education

International Institute of Information Technology Hyderabad

2025 – 2027

MTech in Product Design and Management (PDM) - 7.59/10

Anil Neerukonda Institute of Technology and Sciences

2021 – 2025

BTech in Computer Science and Engineering (Data Science) - 9.18/10

Projects

GitSprint

Live Demo | GitHub

- Built an agile project management platform with sprint tracking, Kanban boards, and story management
- Developed multi-tenant architecture with Organizations, Projects, Sprints, and role-based access control
- Implemented drag-and-drop Kanban workflows using **@dnd-kit** with filtering and scheduling
- Added authentication with Better Auth supporting OAuth, sessions, and verification flows
- Built a Tiptap-based rich text editor with syntax highlighting and media support
- Integrated Stripe billing via Polar and file uploads with UploadThing
- Tech Stack: **Next.js 15**, **React 19**, **TypeScript**, **Tailwind CSS 4**, **MongoDB**, **Prisma**, **Better Auth**, **Tiptap**, **dnd-kit**, **UploadThing**, **Polar**

SelfieSearch

Live Demo

- Built an AI-powered facial search platform using ArcFace embeddings via a FastAPI microservice
- Designed a dual-service architecture with Next.js frontend and Dockerized Python worker
- Implemented vector similarity search using MongoDB Atlas Vector Search with cosine fallback
- Developed media ingestion pipeline with S3 uploads, thumbnail generation, and embedding extraction
- Added QR-based event access, guest search portals, and admin dashboards
- Integrated S3-compatible storage with signed uploads/downloads and configurable providers
- Tech Stack: **Next.js 16**, **React 19**, **TypeScript**, **Tailwind CSS 4**, **MongoDB**, **Prisma**, **tRPC**, **Python/FastAPI**, **ArcFace**, **OpenCV**, **AWS S3**, **Docker**

Skills

Languages: TypeScript, JavaScript, Python, SQL, Java

Frontend: React, Next.js, Tailwind CSS, TanStack Query, tRPC

Backend: Node.js, Express.js, FastAPI, Prisma, Better Auth

Databases & Cloud: MongoDB, PostgreSQL, AWS S3, Docker, Vercel

Tools & Libraries: Git, GitHub, Tiptap, dnd-kit, UploadThing, OpenCV

Achievements

- Secured **AIR 1243** in **GATE 2024 (Data Science & AI)**
- Planned, Lead and rolled out CRMs, Products and native applications
- Won the **AWS Hackathon** as part of a six-member team
